### **Local Business Owner Jennifer Kim Named to NSBA Leadership Council**

CALIFORNIA – JENNIFER KIM, CEO & FOUNDER OF SEUNwater of FRESNO was recently named to the National Small Business Association (NSBA) Leadership Council. NSBA is the nation's oldest small-business advocacy organization, and operates on a staunchly nonpartisan basis. Kim, a recognized leader in the small-business community, joins the NSBA Leadership Council alongside other small-business advocates from across the country as they work to promote the interests of small business to policymakers in Washington, D.C.

"As a small-business owner, I see daily the importance of being involved and active when it comes to laws and regulation," stated Kim. "Joining NSBA's Leadership Council will enable me to take our collective small-business message to the people that need to hear it most: Congress."

Jennifer Kim is a mother of two and entrepreneur with over 20 years of business experience. Most recently, she completed a Google StartUp Accelerator and is completing a prototype for continuous water monitoring that will be used in healthcare.

Kim joined the NSBA Leadership Council as part of her efforts to tackle the many critical issues facing small business, including tax reform, regulatory restraint, health care costs and how the Affordable Care Act will impact small business. The NSBA Leadership Council is focused on providing valuable networking between small-business advocates from across the country while ensuring small business a seat at the table as Congress and regulators take up key small-business proposals.

"I am proud to have Jennifer Kim as part of our Leadership Council," stated NSBA President and CEO Todd McCracken. "She came to us highly recommended and I look forward to our coordinated efforts for years to come."

SEUNwater is technology that monitors water data. Think of it as a security system specifically created to keep balance and prolong the life of large infrastructure mechanisms that rely on water. #waterdatatotheworld
